CURRICULUM VITAE

PERSONAL DATA

Name	Akintunde Ojutiku, M.Sc.
Location	Linz, Austria
Email	aojutiku@live.com
Phone	+43 660 636 6659
Work Permit	Red-White-Red Card Plus (valid Dec. 2028)

PROFESSIONAL SUMMARY

AI specialist with experience **building and scaling ML** models and **dependable data pipelines**. Focused on delivering stable, efficient AI systems in production through clear collaboration and strong quality standards.

EDUCATION

10.2021–03.2026 **Master's** in Artificial Intelligence at Johannes Kepler University
Machine Learning and Perception | AI for Simulation

10.2016–09.2019 **Master's** in Development Studies at the University of Passau, Germany
Sustainability and Resources | Sociology and Politics

09.2009–03.2014 **Bachelor's** in Demography and Statistics at Obafemi Awolowo University, Ile-Ife, Nigeria
Demography | Statistics

SELECTED PROJECTS

08.2025–03.2026 **Master's Thesis** (JKU)
xLSTM for Bi-Directional Protein Language Modelling Under Resource Constraints

Updated-2026 **Production Multimodal Retrieval System for Text, Audio, and Video**
Built and deployed a Kubernetes-based retrieval pipeline combining LLM embeddings with RAG.

10.2024–06.2025 **TinyStories—Microsoft Research (**AI Practical Work at JKU)
Contributed to developing and evaluating small language models trained on a synthetic corpus for ages 3–9, demonstrating coherent text generation under 10M parameters.

10.2023–03.2024 **AI for ML Model Decision Evidence (**JKU)
Translated ML predictions into visual evidence for technical and non-technical teams.

EXPERIENCE

10.2024–06.2025 **Practical Work**, Johannes Kepler University, Linz
TinyStories project (Microsoft Research): Developed and evaluated compact LLMs trained on constrained child-level corpora.

02.2014–03.2016 **Data Scientist,** University of Calabar, Nigeria
Supported data governance and privacy compliance across faculties, managing core data infrastructure and ensuring reliable access to institutional datasets.

11.2021–Present **Operations Specialist**, IKEA, Haid
Assisting cross-functional teams and applying Lean processes across the fulfilment and product lifecycle for quality delivery.

10.2020–09.2021	**Fulfilment Associate** at Amazon MUC3, Germany Managed fulfilment operations in a high-volume logistics environment.
03.2017–08.2020	**Logistics Assistant** at PNP-ExCom, Passau Provided operational support alongside graduate studies.

Soft Skills

Good communication • Leadership by example • Problem Solving • Team Collaboration

Hard Skills

Backend	FastAPI
Cloud & Big Data	Databricks • Microsoft Azure • AWS
Computer Vision	3D Image Reconstruction • Optical Flow • Image Detection & Segmentation
Generative AI	RAG • LangChain • LLM Apps (OpenAI • Llama • Anthropic) • Vector DB
ML Architectures	CNN • RNN • xLSTM • Transformers
DevOps	Docker • Kubernetes • Linux • CI/CD
Programming	Python • Java • PyTorch • PostgreSQL + pgvector
Supervised ML	Classification • Regression • XGBoost • SVM • Random Forests
Unsupervised ML	Clustering • PCA • ICA
Visualisation	Tableau • Power BI
Deep RL	PPO • DQN

Certifications

International Project Management, University of Passau, Germany

Authentic Leadership, University of Passau, Germany

Lean Six Sigma Yellow Belt, Technical University of Munich

Publications

xLSTM for Bi-directional Protein Modelling under resource constraints, Hochschulschriften, Johannes Kepler University
